

## CO REVIEWER USER MANUAL

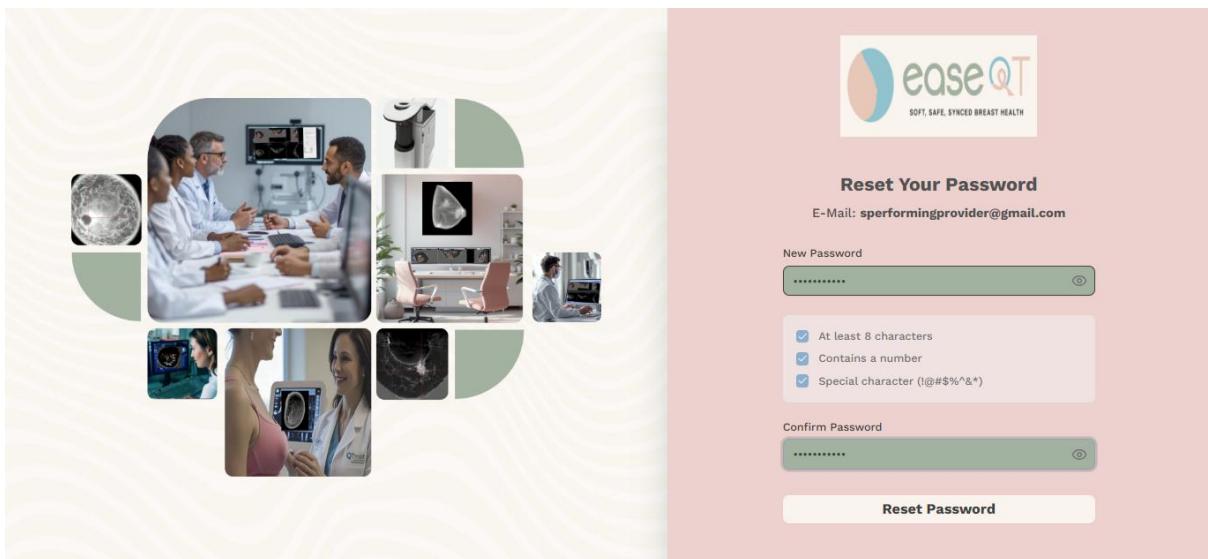

They can sign in using the email and password provided by the scan centre.

A verification code will be generated and sent for verification.

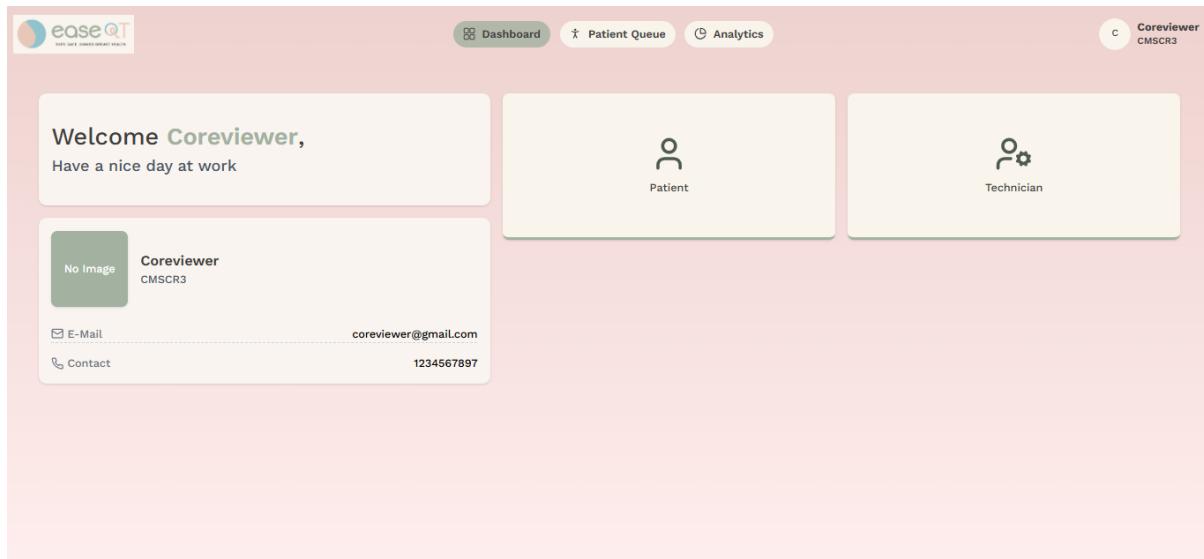

The consent form must be filled by the co reviewer.

The password must be reset for the security purpose.

## DASHBOARD

In dashboard, the scan centre co reviewer can view patient brochure, patient consent, tech guideline and tech consent.

## PATIENT QUEUE

The Patient Queue page displays a table of patient cases. Each row includes columns for Date, Scan Centre, Patient Name, Form, Tech Form, DICOM files, Old Report, QT Report, Report Status, Assign, Pending Remarks, and Remarks. The table shows four entries from September 17 to 19, 2025, with various report statuses like 'S - View', 'View', and 'REVIEWED 2'.

	Date	Scan Centre	Patient Name	Form	Tech Form	DICOM L   R	Old Report	QT Report	Report Status	Assign	Pending Remarks	Remarks

In the patient queue, the scan centre performing provider can view the patient list, patient forms, technician view and DICOM files. They can fill out reports, check the report status, assign the case to another user and add pending remarks if needed and can view previous remark also. Click on **View** to proceed with filling out the report. And they can multi select and download DICOM and Final reports. They can upload and download patient's old report.

The screenshot shows the easeQT software interface. The top navigation bar includes tabs for Patient Form, Technician Form, Dicom, Report, and Final Report. The Report tab is active. On the left, a sidebar displays a list of reports with columns for S.No, Report Title, and File. The second report in the list has a status of "Reviewed 1". Below this, there are sections for Time stamp, Created by, and Status saver. The main content area shows a patient summary with fields for NAME, US, DOB, GENDER, SCAN CENTER, and USERID. It also includes sections for ULTRASOUND BREAST IMAGING, TECHNIQUE, and SYMMETRY. A copyright notice at the bottom right reads "Copyright © Wellthereen".

They have access to Reviewed 2 correct and Reviewed 2 edit after reviewing the report. If co reviewer doctor needs to edit anything they can edit in final report.

This screenshot is identical to the one above, showing the easeQT software interface with the Report tab active. The left sidebar shows a list of reports, and the second report has a status of "Reviewed 2". The main content area displays the same patient summary, imaging findings, and technique sections as the previous screenshot.

There is an option called "Reset to Default." If the report was done incorrectly, they can use this option to revert it to the default state.

The screenshot shows a medical software interface. At the top, there's a navigation bar with 'Back' and 'Next' buttons, and a page number '1/1'. Below the navigation is a search bar containing a patient ID and some other text, followed by a set of icons for file operations like download, print, and zoom. The main content area has a header with patient details: Name: z0SuYYZcbHUGC4gse+1qzr7Y0J7gtJAeHCYiTBAJM..., Date: 18/01/2024, and Scan Center: [redacted]. To the left of the main content is a vertical sidebar with a 'S.No' column and a table with three rows. The main content area contains two large rectangular boxes, one above the other. The top box is labeled with the number '1' in its center. The bottom box is also labeled with the number '1' in its center. At the bottom of the screen, there's a footer with a table titled 'Introduction' and 'PAGE No'.

S.No	Title	PAGE No
1	Introduction	1

The users can see uploaded Patient's old reports and their current report.

## ANALYTICS

In analytic, the co-reviewer can view their total case count, TAT, previous 6 months count, Reco code and artifacts.

## **GENERAL TIPS**

1. If you open something in edit mode, save it before exiting-otherwise, others won't be able to use it.
2. After addressing pending remarks, leave another remark saying "Done" and set Assign to as None.
3. The Filter option is available for sorting.
4. For bulk downloads, use the checkboxes to select patients and then download in bulk.
5. To add a pending remark, click the + icon.
6. When viewing a report, always click Back to exit-otherwise, the case you opened may freeze.
7. Use Image Preview to add images to a report.
8. To refresh the page, press Ctrl + Shift + R.
9. For DICOM downloads and voice dictation, use Chrome or Edge. (For Firefox, click Save. Do not use Internet Explorer.)
10. Always log out properly-do not just close the browser or tab.

## **Reviewer**

1. Review 2 is not reversible - admin intervention is required to undo it.
2. easeQT is disabled after signing off in R2.
