

RADIOLOGY USER MANUAL

Once the scribe completes the report, the radiologist will begin their review, verify the scribe's entries and proceed to finalize the report.

The radiology can sign in using the email and password provided by WellthGreen.

The verification code will be generated for the verification.

Or Care. I understand that all such data will be handled securely and only by authorized personnel.

5. Credential Use and Responsibility

I confirm that all credentials, licenses, or certifications I provide during registration are accurate and current.
I agree to keep my login credentials confidential and to notify the platform administrator of any suspected breach or unauthorized access.

6. Communication & Updates

I consent to receiving essential updates, notifications, and communications related to the EaseQT platform via email or in-app alerts.

I agree to the above universal terms and policies.

7. Radiologist Consent

- I will review and input findings based on available imaging and history.
- I acknowledge that my reports may be reviewed or finalized by a signatory doctor.
- I will adhere to the platform's turnaround time (TAT) policy.
- I agree to collaborate respectfully with peers and escalate unclear cases as needed.

I agree to the Co-Reporting Doctor role-specific terms.

Submit

The radiologist needs to sign the form to proceed.

easeQT
SOFT, SAFE, SYNCED BREAST HEALTH

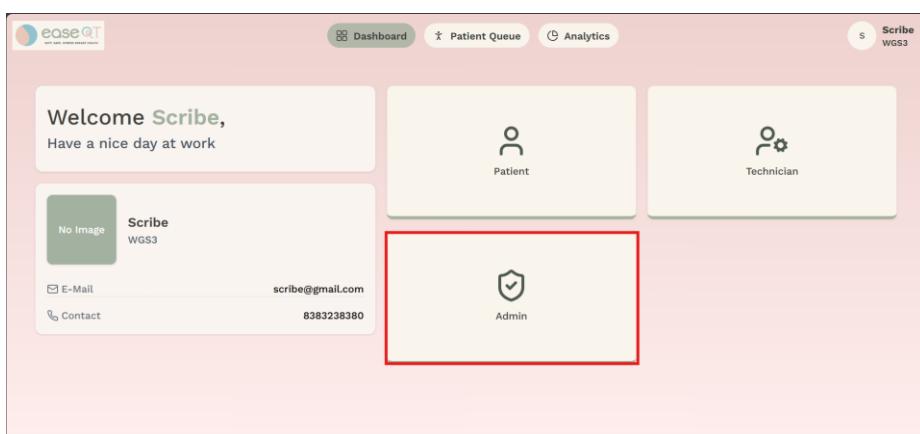

The radiologist needs to reset password for their security purpose.

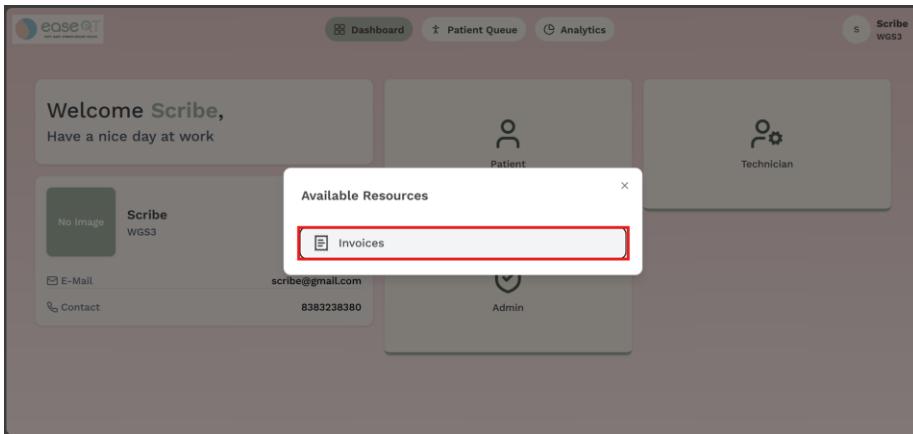

In the dashboard, the radiologist can view the patient brochure, technician guidelines, radiologist training material and invoices.

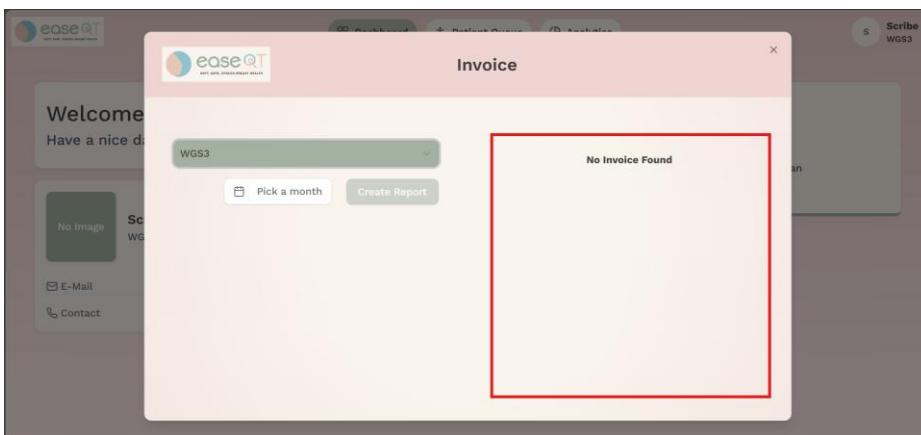

1. Invoices

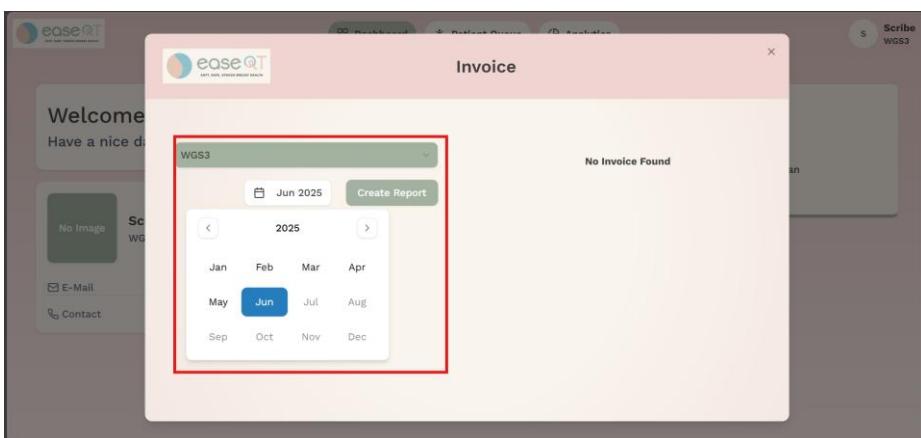

Clicking on the 'Admin' button triggers a popup window.

Clicking the 'Invoices' button open to the Invoice page.

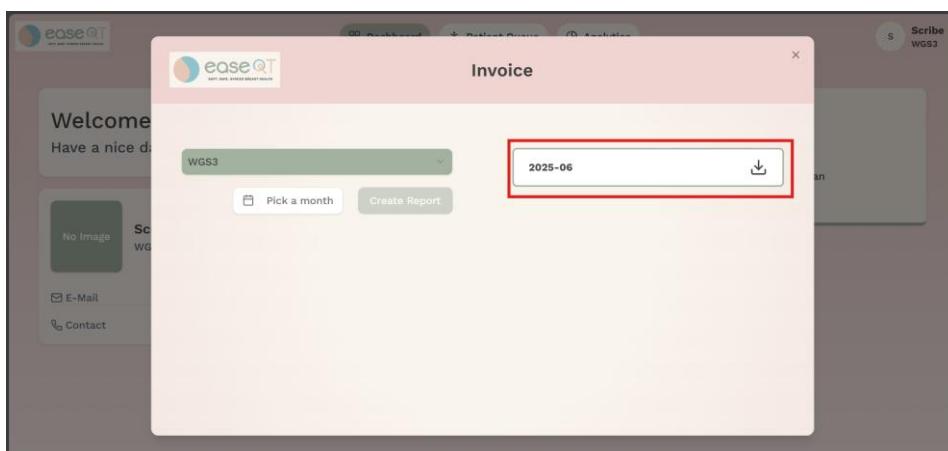

This section displays a list of invoices generated by you or the admin.

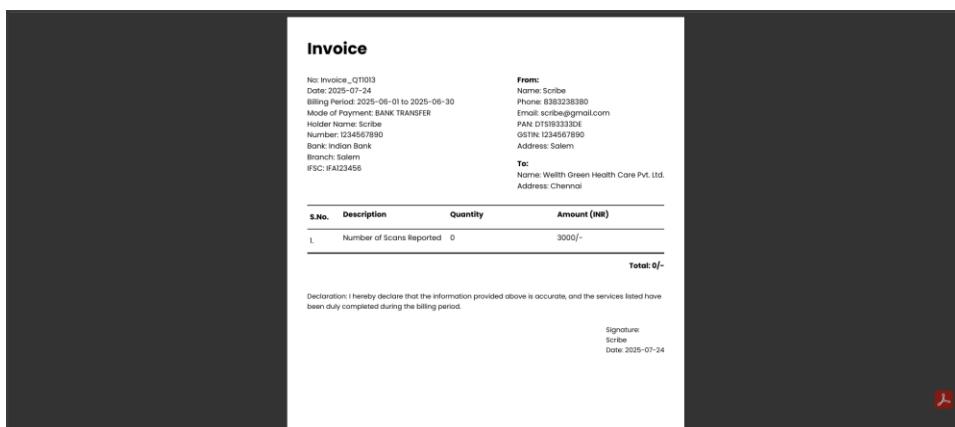

If you need an invoice, select the desired month from the enabled options and click the 'Create Report' button to proceed to the invoice creation page.

The marked fields are auto-populated with data from the system and cannot be edited.

Unmarked fields are editable. Once all the required details are filled in, click the 'Generate Report' button to create the invoice.

Generated invoices are listed here. If you need a copy, click the 'Download' button to download your invoice.

PATIENT QUEUE

The screenshot shows a patient queue interface with the following details:

	Date	Scan Centre	Patient ID	Patient Name	Form	Tech Form	DICOM	Old Report	QT Report	Report Status	Assign	Pending Remarks	Remarks
<input type="checkbox"/>	Sep 17, 2025	MSC	P100006	Testing12	Dc - View	View	(1) ↓ -	View DICOM	View	SIGNED OFF (A)	Assign	No remarks...	+ @
<input type="checkbox"/>	Sep 18, 2025	MSC	P100006	Testing12	S - View	View	(1) ↓ -	View DICOM	View	REVIEWED 2	Assign	R1 R2 stuck	+ @
<input type="checkbox"/>	Sep 22, 2025	MSC	P100006	Testing12	S - View	View	(1) ↓ -	View DICOM	View	SIGNED OFF (A)	Assign	No remarks...	+ @

Buttons at the bottom include: Rows per page (50), Previous, Next, and Page 1 of 1.

The radiologist can view the patient form, technician form and the DICOM files uploaded by the technician. Using these, they can start creating the report. They can also assign the report to another user if needed and add pending remark and can view previous remark also. Click on **View** to proceed with filling out the report. And they can multi select and download DICOM. They can upload and download the Patient's old report.

The report interface for the Right Breast includes the following sections:

- Left Sidebar:**
 - Back button
 - Patient Name: sofia
 - Patient ID: P100016
 - Gender: Female
 - DOB: August 4, 1997 (28 Y)
 - Patient Form: S Form
 - Date: 18 Sept 2025
 - Scan Center: MSC
 - Other reports: No Reports Found
 - Other Old reports: No Reports Found
 - Time stamp: Created by sofia on 18 Sept 2025 at 18:00 Patient Intake Form Fill
- Right Side Content:**
 - Right Breast** section header
 - Impression** section with findings:
 - 0 Incomplete/Indeterminate Study
 - 1 Likely Benign Findings
 - 1a Likely Benign Findings + Architectural Distortion
 - 2 Low-Risk Characteristics
 - 2a Low risk - too small
 - 3 Indeterminate Findings: Non palpable mass
 - 3a Indeterminate: Not Definitively Abnormal
 - 3b Indeterminate: Calcifications
 - 3c Indeterminate: Cysts
 - 3d Indeterminate : Postop changes + fluid/ seroma
 - 3e Indeterminate: Post-surgical vs. Recurrence
 - 3f Indeterminate: Likely Fibrosis
 - 3g Indeterminate: Long Standing Findings
 - 4 Pain But No LUMP + QT Finding
 - 4a Palp Lump - No QT Finding or Ab/Normal image findings
 - 4b Palpable Lump + QT Finding
 - Recommendation** section with follow-up steps:
 - 0 Repeat QT Imaging
 - 1 Routine Annual Screening
 - 1a Routine Annual Screening
 - 2 Short-Term Follow-Up 6m
 - 2a Short-term Follow-up 6m
 - 3 Growth Rate Assessment 3m
 - 3a Confirm Benign Nature with Targ USG
 - 3b Targ USG for Cystic Mass Evaluation
 - 3c Clinical consultation with a breast specialist or health care provider for Calcification Management
 - 3d Clinical Consultation
 - 3e Clinical consultation + Surveillance
 - 3f Clinical Consultation + Surveillance
 - 3g If persists - Targ Usg
 - 4 Clinical Monitoring
 - 4a Breast specialist Evaluation, neg never preclude/Targ USG.

QT ULTRASOUND BREAST IMAGING
 Indication: Screening : Routine Annual Checkup.
 History:
 Reason for having this QT scan (Patient Stated): sss.
 Patient is asymptomatic.
Imaging:
 • sss.

TECHNIQUE: Transmission and reflection multiplanar 3-dimensional ultrasound imaging of both breasts was performed using the QT Ultrasound Series 2000 Model-A scanner.

The screenshot shows a mobile application interface for a medical record. At the top, there is a navigation bar with a 'Back' button, a page number '1/1', and a 'Next' button. Below the navigation is a header containing a QR code and the text 'z0SuYYZcbHUGC4gse+1qzr7Y0J7gtJAeHCYiTBAJM...'. The main content area displays a table of contents with the following data:

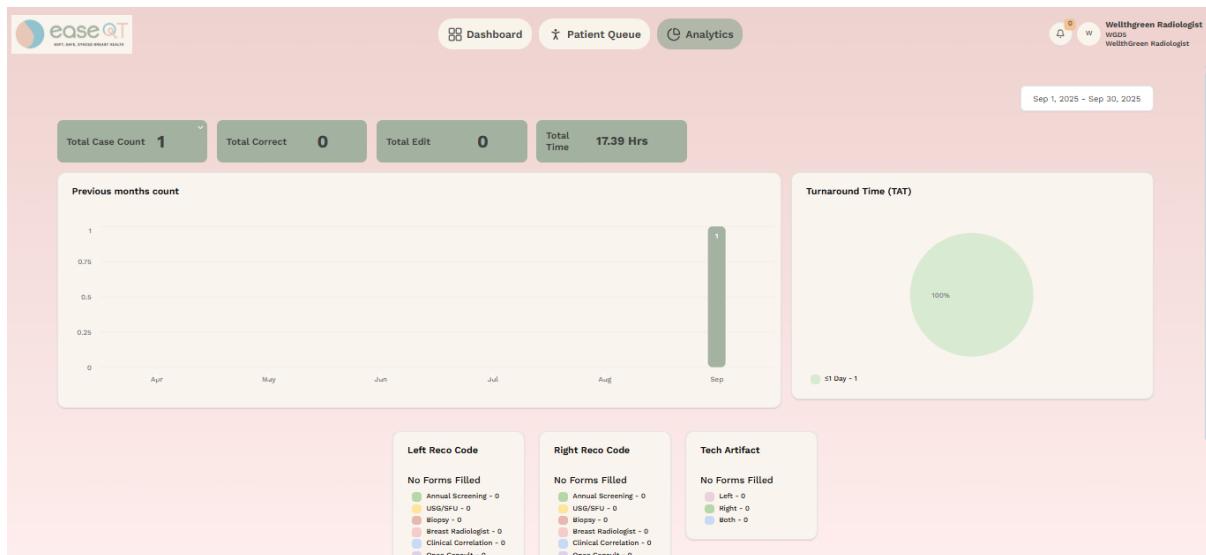

S.No	Title	PAGE No
1	Introduction	1

The users can see uploaded Patient's old reports and their current report.

In the report section, the radiologist will complete the report, with some fields auto-populated from the technician form. If they want to make corrections to the final report, they can switch from “Unsync (easeqt 10.10 option)” to “Sync (easeqt 10.10 option)” to enable editing. And they can submit by giving draft.

ANALYTICS

In Analytics, the radiologist can view their total case count, the number of correct and edited cases, TAT (Turnaround Time), data for the previous six months Artifacts and Reco code.

GENERAL TIPS

1. If you open something in edit mode, save it before exiting-otherwise, others won't be able to use it.
2. After addressing pending remarks, leave another remark saying "Done" and set Assign to as None.
3. The Filter option is available for sorting.
4. For bulk downloads, use the checkboxes to select patients and then download in bulk.
5. To add a pending remark, click the + icon.
6. When viewing a report, always click Back to exit-otherwise, the case you opened may freeze.
7. Use Image Preview to add images to a report.
8. To refresh the page, press Ctrl + Shift + R.
9. For DICOM downloads and voice dictation, use Chrome or Edge. (For Firefox, click Save. Do not use Internet Explorer.)
10. Always log out properly-do not just close the browser or tab.
